Shipping Exception **on Walmart**

Shipping exception is the functionality to add the shipping charges to individual product according to the specification that where the product is to be delivered and which shipping method is used.

To remove free shipping from your products you have to go to **Walmart Configuration => Product Settings => Remove Free Shipping From all Products => YES**. By doing this free shipping will be removed from your products.

To remove free shipping from products [click here](#)

Product Settings	
Product tax Code <small>▲ To get product tax code click here</small>	<input type="text" value="2040204"/>
Product Import Option	<input type="text" value="All Product"/>
Product Custom Pricing (fixed or %age)	<input type="text" value="No"/>
Remove Free Shipping From all Products	<input type="text" value="Yes"/>

You can set shipping charges to individual products by going to **Product => Manage product => edit => Add Shipping Exception**. By doing this you can sent the shipping charges to individual products. [Click here](#) to add shipping exception to the products.
