Attribute Mapping

Attribute Mapping is the process of mapping the shopify attribute like color, size or style with the walmart attribute. Attribute mapping is mandatory in case of variation products but sometimes attribute mapping is also required for simple products also, when you had products for specific size or color.

Attribute mapping can be done in two ways, either mapping the attributes of all the product at one time or mapping the attribute of individual product by editing them.

To do the attribute mapping of all the products at one time go to **Products => Attribute Mapping**. [Click here](#) to do the attribute mapping of all the products.

Shopify-Walmart Attribute Mapping Submit

Variant : Attribute Can be Used for Creating Variants on Walmart.

Required : Attribute is Required on Walmart.

Product Type(shopify)	Walmart-Shopify Attributes	
	Walmart	Shopify
9feb2	foodForm Required	<input type="text"/> ▲ Enter any value for 'foodForm' attribute if there is no similar option in shopify.
	alcoholContentByVolume Required	<input type="text"/> ▲ Enter any value for 'alcoholContentByVolume' attribute if there is no similar option in shopify.

If you want to do the attribute mapping of individual product, go to **Products => Manage Products => edit**.

[Click here](#) to do the attribute mapping of individual products.
